Nyasa in simple words means "to purify", Mahanyasa means to do the same with more rigor. In other words, Mahanyasa means to manifest Lord Shiva in every part of body from head to soul. According to Veda Vyasa "Naa Rudro Rudramarchayet", meaning unless you become Rudra himself, you cannot perform Rudrabhishekam, such is the power of Rudrabhishekam.

Lord Shiva is considered Samisti, implies totality. Samisti is composition of all of Vyasti, an individual ingredient. By worshipping Lord Shiva, it is considered whole universe is collectively worshipped and benefited at the same time.

In situations where wars are inevitable, where nation experiences severe economic turmoil and when fate brings epidemics in society, kings and rulers have always found and reaped benefits only after performing Rudrabhishekam.

Any day is a good day to perform Rudrabhishekam, but when performed on Masashivaratri magnifies the positive impact exponentially. The benefits of Rudrabhishekam cannot be overstated, anyone who performs, or even gets a glimpse when priests are performing will be blessed with long life, good health, wealth and eventually moksha.
